Summary

Bilingual GRC and IT operations professional with a B.S. in Management Information Systems and hands-on AI-assisted development. Built and deployed a bilingual Next.js portfolio using Claude Code and OpenAI Codex; applies LLMs to HIPAA-to-NIST gap analysis with human review. Brings HIPAA, RBAC, workflow automation, and 900+ critical cycles with zero reported privacy violations to the AI Engineer, Top Talent IA role.

Education

Keiser University

B.S. Management Information Systems.

Fort Lauderdale, FL

May 2022

Relevant Coursework: Database Management, Network Security, Systems Analysis, Software Engineering. Process Optimization, Project Management.

Experience

Propio Language Solutions

Data Privacy & HIPAA Compliance Specialist

REMOTE

April 2024 - Present.

- Applied HIPAA safeguards to high-acuity cardiology and emergency-care interpretation workflows, supporting 900+ critical cycles with zero reported privacy violations.
- Maintained a 91% quality assurance score while handling sensitive healthcare communications and following strict privacy and access protocols.

AnswerNet

Access Control & Security Operations Lead

FLORIDA

Nov. 2023 - Sept. 2024

- Designed and enforced a least-privilege RBAC policy for SharePoint, reducing unnecessary access and insider-threat exposure.
- Reduced Tier 3 incident escalations by 45% in four months by analyzing KPI trends and deploying a secure SharePoint knowledge base on a private VLAN.

Welocalize(Google Project)

Data Quality & Policy Compliance Auditor

REMOTE

Jan. 2023 - Oct. 2023

- Ensured strict adherence to Google's governance frameworks by executing rigorous compliance audits using the EWOQ ad Rating System.
- Analyzed multi-variable datasets to identify policy violations and content risks, providing quality insights to support Google Search evaluation.

Concentrix

IT Incident Response & Workflow Analyst

FLORIDA

May 2021 - Jan. 2023

- Reduced manual ticket processing time by 20% by developing automated scripting tools to categorize and route incoming IT tickets.
- Exceeded SLA performance metrics by systematically tracking, documenting, and escalating complex IT incidents via Zendesk CRM.

Projects

AI-Assisted Software Delivery: Built and deployed a bilingual Next.js portfolio with Claude Code and OpenAI Codex, using prompt-led planning, debugging, human review, and Vercel CI/CD.

LLM-Assisted GRC Analysis: Used Claude, Kimi, and DeepSeek to draft HIPAA-to-NIST CSF mappings; verified recommendations against framework sources and workflow evidence.

AI Product Prototypes: Developed Workout Vault, Chrono Clash, and a calendar tracker through AI-assisted prototyping; tested privacy-first network segmentation in a three-router home lab.

Skills & Certifications

Frameworks & Compliance: GRC, HIPAA, NIST CSF, ISO 27001 Fundamentals, PCI DSS, data privacy auditing, risk analysis.

AI & Development Tools: Claude Code, OpenAI Codex, ChatGPT, Gemini, Kimi, DeepSeek, Next.js, TypeScript, Vercel, GitHub.

Technical & Operations: RBAC, SharePoint, incident response, workflow automation, Excel, Asana, Zendesk, Kali Linux, Wireshark.

Certifications: Cisco Networking Foundations (Dec 2024); Asana Workflow Specialist (Apr 2025).
